1. Authorization must be obtained from Medtronic's Customer Service or Order Desk before the return of any products. A Returned Goods Authorization (RGA) number must be clearly identified on the external packaging of any returned product. Returned product must be in the original packaging and packed in a second container (external packaging). 2. Freight on all returned product **must be prepaid.**

3. Credit schedule for returned product:

- a) Product shipped in error by Medtronic will receive full credit.

- b) Product returned within 90 days of invoice date in **saleable condition**¹ (with the exception of Glucose Sensors) will be subject to a 15% reprocessing fee.
- c) Product not eligible for return will not be credited. This includes:
 - Product returned without an RGA number.
 - Product returned more than 90 days after invoice date.
 - Product opened or used.
 - Product past expiration date.
 - Glucose Sensors

Glucose Sensors

Due to the chemical nature of the Glucose sensors, special care and handling is required. Sensors have a short "shelf-life" so please make note of the following:

- Sensors must be stored in a refrigerated environment so refrigerate immediately upon receipt.
- The integrity of the sensors remains intact for 1 week when they have left our shipping docks. Please ensure someone is available to receive the order promptly or the need to make arrangements for immediate pick-up at the depot will be required.
- Contact Medtronic if you receive the sensors with a blue/black "Heat/Freeze" indicator. This means that the product has spoiled during delivery and replacement is necessary.

Damaged Shipments

Note the extent of the damage on the delivery receipt. Request the carrier to inspect the damaged items as well as the container upon receipt and unpacking. Notify Medtronic within (5) working days of receipt of products.

Shipping Variances

Notify Medtronic if a shipping variance has occurred. Medtronic will not be responsible for variances unless notification is received immediately, within 24 hours after the shipment has been delivered.

Product Warranties

The written Product Warranty enclosed with each Product sets forth the warranty applicable to each product. No other warranties apply, either expressed or implied, including any warranties of merchantability or fitness for a particular purpose.
